## GEN. PERSHING IS NOT WASTING WORDS WITH GAVIRA

### MEXICO MUST SHOW ABILITY TO CONTROL

#### Secretary Baker Takes Step to Probe Movement of Troops in Chihuahua

(By Associated Press.)  
WASHINGTON, June 1.—American troops are not to be withdrawn from Mexico until Carranza demonstrates he has control of the situation to protect the border. A reply to that effect probably will be made to the Carranza note. The president is represented as ready to withdraw troops when possible, but he is determined to wait until the Carranza forces can control the situation. Secretary Baker took steps today to obtain definite information as to the disposition of the Carranzistas in Chihuahua where General Pershing is maintaining cavalry patrols.

(By Associated Press.)  
EL PASO, June 1.—General Gavira, who departed yesterday to confer with General Pershing, is expected to return to Juarez tonight. The announcement that the conference was of such short duration came as a surprise. The Carranzistas said the first intimation of the existence of the latest Carranza note to the United States came with its publication. It is said that when Gavira departed for Casas Grandes he had no knowledge of the note.

### SHOVELS BUSY ON RAILROAD

PANAMA EQUIPMENT IS GOING AHEAD WITH CONSTRUCTION AT SEWARD

(By Associated Press.)  
SEWARD, Alaska, June 1.—Spring's arrival found Uncle Sam's railroad constructors busy pushing work on the government line to Fairbanks from this port, despite the fact that the winter was the severest for a quarter of a century.

A trip over the railroad from Seward to Mile Thirty-Five, which is as far as the old Alaska Northern railroad has been kept open this winter, shows that changes amounting to practically a reconstruction of the road are contemplated by the engineers.

A big steam shovel "United States No. 54" brought here from the Panama Canal, is out at the head of Resurrection Bay, getting acclimated to working in ground with two feet of frost on the surface. The big shovel rots away into the gravel below the frost and finally tears up huge sections of the top layer, pushing pieces too heavy to lift off to one side, where the sun soon reduces them to piles of crumbling moss and soil.

In the railroad yards here all the equipment of the old Alaska Northern railroad is being repaired and placed in service. At first the Railroad commission planned to discard this equipment, but war demands have forced up the price of locomotives and rolling stock.

#### NORWEGIAN STEAMER SUNK

(By Associated Press.)  
LONDON, June 1.—The Norwegian steamer Rauma was sunk in the Mediterranean by a submarine. The crew was saved.

### Afternoon Newspapers Are Printing the News TODAY!

That is what the public wants. The old time publisher used to think that it did not make any difference whether the public received the news today or tomorrow. The average newspaper was filled with correspondence weeks old. But today, the public demands, the news of today without delay. What is news this afternoon is history tomorrow. A subscriber is not content to read the news tomorrow that his neighbor read yesterday in a more enterprising newspaper.

### CALIFORNIA WOMAN HEAD OF FEDERATION

(By Associated Press.)  
NEW YORK, June 1.—Mrs. J. E. Cowles of Los Angeles was elected president of the General Federation of Women's Clubs defeating Mrs. Sneath of Ohio.

### 9,000 STRIKE ON THE COAST

SHIPPING FROM SAN DIEGO TO NOME TIED UP FOR WANT OF CREWS

(By Associated Press.)  
SAN FRANCISCO, June 1.—Nine thousand longshoremen, demanding a wage increase from San Diego to Nome went out on strike the order taking effect at 6 a. m. automatically. Ship owners were notified more than a week ago but refused to reply. Both deep sea shipping and coasters are affected at the principal ports. Four thousand are out in San Francisco and the remainder at Seattle, Portland and other points. River boats out of San Francisco are idle, 600 men striking. They want a five month increase. Produce is being brought in overland.

The San Francisco ship owners granted an increase of five cents an hour to the longshoremen, and reiterated their refusal to meet the additional demand for \$1.00 an hour for overtime. The men have been getting fifty cents an hour straight for work. District Secretary Foley of the Longshoremen's Union said: "This looks like a feeler."

Three shipping companies granted the full demands of the longshoremen. All coast passenger boats continued in service without carrying freight.

### J. M'CRIMMON DIES AFTER LONG ILLNESS

CONSUMPTION BROUGHT ON BY AN ATTACK OF PNEUMONIA LAST FALL

John McCrimmon died yesterday afternoon at Stockton after having been in the local hospital for one week. The cause of death was consumption due to an attack of pneumonia last fall from which the patient never rallied. Last spring he visited his ranch in California and then came back to Tonopah but soon deemed it advisable to return to the lower level at Stockton where he remained with his wife until the end came.

Deceased was born in 1858 at Carleton Place, Ontario, and at the age of four years removed with his parents to Clifton Mines, Michigan, where he grew up to the age of manhood. In 1881 he went to Nome and in 1904 came to Tonopah where he found employment with the Southern Nevada Mines company at their properties in Tybo, Reveille and Fitting. Three brothers and four sisters survive. An only son was buried here in 1907. The funeral will be held at Stockton tomorrow.

#### ENTERTAINED IN HONOR OF MR. AND MRS. ROBERT PROUTY

Dr. and Mrs. McLeod entertained last evening in their home with a dinner and dance given in honor of Mr. and Mrs. Robert Prouty, who are going to California to make their home. The color scheme was pink and green. At 9 o'clock the rooms were cleared for dancing which continued until a late hour.

manners. Davis was thrown clear but Pohl was caught under the car and badly bruised. No bones were broken.

### Belmont Dividend Payable July 1st

Dividend No. 27 of the Tonopah Belmont Development company has been posted for payment on the first of July. The dividend rate is 12 1/2 cents calling for the payment of \$187,504.37 and making the total paid out by this company since June 21, 1906, the magnificent sum of \$8,205,531.38 on a capitalization of \$1,500,000.

### BAKER SPIELS FOR HIS PARTY

SECRETARY OF WAR SAYS WILSON WILL MAKE A WINNING RACE

(By Associated Press.)  
COLUMBUS, June 1.—As chairman of the Ohio Democratic convention, Secretary of War Baker asserted the Republican party is an "aggregation of factions agreeing upon no set of principals." He compared it with the Democratic party which he said had carried out a wise and definite program of economic measures, preparedness, and foreign policy. He predicted the Democratic party would be continued in power.

### TWENTY KILLED IN VENEZUELA

RIOTS CAUSED BY THE APPOINTMENT OF THE PRESIDENT OF A PROVINCE

(By Associated Press.)  
WILLEMSTAD CURACAO, June 1.—Twenty persons were killed or wounded in an outbreak at Maracaibo, Venezuela, against General Garcia, who was appointed president of the state of Zulia, succeeding temporary President Aranguren. Troops fired upon citizens who endeavored to prevent Garcia from landing from a steamer.

#### HEADQUARTERS OPENED FOR PRESIDENTIAL RACE

(By Associated Press.)  
CHICAGO, June 1.—Iowans have opened headquarters for Senator Cummins for a presidential candidate. Headquarters also were opened today for Governor Brumbaugh of Pennsylvania.

#### DISSOLVED PARTNERSHIP

Frank Malley is the sole owner of the Club saloon on Main street having dissolved partnership. His friends will find him at the old place where the quality of the goods and service will remain unchanged.

#### ROOSEVELT WILL NOT BE AT CHICAGO CONVENTION

(By Associated Press.)  
PITTSBURGH, June 1.—Roosevelt while en route to New York, was questioned whether he would attend the convention and replied: "I will not go to Chicago."

#### TODAY AND A YEAR AGO

Official readings of the thermometer by the United States observer at Tonopah.

	1916	1915
5 a. m.	38	56
9 a. m.	47	63
12 noon	55	74
2 p. m.	58	78
Relative humidity at 2 p. m.	23 per cent.	

### PRESIDENT WILL HEAD THE PARADE ON FOOT

(By Associated Press.)  
WASHINGTON, June 1.—President Wilson afoot will lead the preparedness parade on June 14. Afterward he will review the procession and deliver the flag day address.

### CHICAGO PLANS 7 DAYS OF FUN

PREPAREDNESS WEEK TO USHER IN THREE BIG CONVENTIONS

(By Associated Press.)  
CHICAGO, June 1.—Chicago's great parade in the interest of preparedness, which will take place on Saturday, June 3, will usher in seven days that, it is estimated, will make Chicago the entertainer of the greatest crowd of visitors it has ever taken care of. After the preparedness parade, in which 150,000 persons are expected to take part, will come various conventions. On Monday, June 5, the national convention of women suffragists will meet for a three-day session at the Blackstone theater, and two days later the Progressive national convention will meet at the Auditorium and the Republican national convention at the Coliseum.

One large lake excursion steamer will become a temporary lodging house and it is expected that many Pullman cars will be drawn into service while the crowds fill the city. Two thousand automobiles have offered use of their automobiles for entertainment of Chicago's guests and many private homes will take care of the city's visitors.

Daily lake excursions will be given and one interesting feature of them will be visits to and detailed inspections of the new Chicago Municipal Pier, now almost completed at a cost of about \$5,000,000.

### VACATION TIME FINALLY DISPOSED

WHERE TEACHERS WILL OCCUPY THEMSELVES DURING THE SUMMER

Within a week from the closing of school for the season, the superintendent and members of the faculty have decided where the vacation weeks will be spent. Mr. G. L. Dilworth has a world of work mapped out and thinks that he will doubtless remain right here getting ready for the next term. Miss Catherine Fields, teacher of English and history, will probably visit in Reno a short time before going east to her home in Missouri. Mrs. Catherine A. Smith, domestic science and sewing, expects to take up work along her line in the University of California. Mrs. Maude Coulter will also pursue a course of study at Berkeley. Later a trip to San Diego and Los Angeles may wind up the summer holidays. Mr. Roy H. Cross, will possibly remain in Tonopah supervising plans and making arrangements for his work of the coming months in the manual training department. Mrs. J. A. Curieux will enjoy a quiet time for several weeks in Tonopah. Miss Irma Foltz is looking forward to the delights of rural life for the first part of her vacation in Paradise. She may decide to study a while at Berkeley. Miss Zoe Smith goes to her home in Detroit, Michigan. The summer school at Reno will claim the attention of Miss Hazel Taylor. Miss Edna Sullivan will have the fresh breezes of Santa Rosa, California, to make her vacation pleasant.

### INSULT TO GERMANY WRITES BERLIN MAN

#### Professor Declares President Wilson Leans to Allies in All Suggestions

(By Associated Press.)  
BERLIN, June 1.—Professor Hans Delbueck of the University of Berlin in an article regarding American mediations, says there is something repellant to Germany in the idea of accepting President Wilson's mediation. It is obvious, he says, that the sympathies of Wilson are with the entente powers, which might be regarded as disqualifying him so far as the central powers are concerned. He says, "The president, by using in his speeches, expressions which are insulting, created an atmosphere between us, which renders a cordial rapprochement no longer possible."

(By Associated Press.)  
PARIS, June 1.—The Germans were completely repulsed today in their attack upon the French positions on Dead Man's hill. A violent bombardment continued in this region throughout the night. An intense artillery duel is in progress on the east and west fronts at Douaumont.

(By Associated Press.)  
BERLIN, June 1.—In attacking the German positions southeast of Dead Man's hill the French obtained a foothold in the German first line trenches over an extent of four hundred metres. The French made other repeated assaults, but were beaten off with extremely heavy losses.

### CINNABAR CAMP IS INCREASING PRODUCTION OF QUICKSILVER

(Special to The Bonanza)  
MINA, Nev., June 1.—Cinnabar, the quicksilver camp twelve miles east of here is now sending out more "quicksilver" than any time since the camp installed the numerous retorts, despite the falling off of the market.

A most important strike was made in the estate, owned by Sol Summerfield and J. Holmann Buck on Memorial day, which has since proven to be the richest and largest deposit of cinnabar yet found in the district. News of the strike caused the owners to rush to camp in their machines to substantiate the news. Speaking of its magnitude Mr. Summerfield stated that in a crosscut run from the shaft at a depth of forty feet, a ledge six feet wide was cut carrying values averaging two percent in quicksilver with two feet of five percent ore.

This property is now under lease to Tom Miles of Mina, who is operating one of the retorts, making four charges a day of 700 pounds of ore to a charge; this is turning out about ten flasks of "quicksilver" a week.

Mr. Miles shipped nine flasks this morning through the Mina Mercantile company to C. Colomon, San Francisco. Al Drew and Gene Farnum are daily drawing off the metallic fluid from their retorts. A consignment of twelve flasks went forward from their property to Atkins-Kroll & company of San Francisco today. Next week fifteen flasks will be shipped to San Francisco houses; this amount being already contracted for. F. C. Beadle, manager of the Belleville Tailings association, operating a big plant at Belleville is also sending forward ten flasks today with a similar amount to be sent out in a few days. Territory adjacent to Mina is today supplying munitions material for manufacture of death dealing agencies greater than any new section of the mining states of the country. Today's shipments of quicksilver totaled 31 flasks representing 2,325 pounds of pure "quicksilver"; yet the production of quicksilver at this place is only in its infancy.

R. J. HIGHLAND was a passenger today for Reno.
